PROFILE

Dynamic Fullstack Developer with a background in both frontend and backend technologies. Proficient in developing and implementing scalable RESTful APIs with Node.js, Express.js, and MongoDB, as well as responsive and engaging user interfaces.

Problem Solving

Critical thinking

Attention to Detail

Data Analysis

Team Player

EDUCATION HISTORY

BS in Computer Science

University of Southern Mindanao

WORK EXPERIENCE

Software Developer

INGENUITY SOFTWARE

July 2022 - Present

Frontend Development:

- I have experience building software using Next.js, React.js, Material-UI, Tailwind CSS, TypeScript.
- Create Responsive Pages, Forms, and table. Also doing the backend integration and frontend Authentication.
- I use github for version control and code reviews.
- Developed integration and end-to-end tests using Vitest and Playwright.

Backend Node.js development:

- I have experience building microservices software using Node.js, Express, PostgreSQL with RESTful API architecture
- I use AWS Lambda functions for serverless computing.
- Implemented CI/CD pipelines using GitHub Actions, automating the deployment process
- I have experience in code refactoring for performance improvements.
- I use github for version control and code reviews.

WEB DEVELOPEMENT TRAINING

FULLSTACK WEB DEVELOPEMENT

Uplift Code Camp (January - June 2022)

Learning the fundamentals and industry standards of MongoDB, Express.js, React.js, and Node.js.

Projects:

- Backend RESTful API Design: Development of a Recipe List API with a focus on scalability, reliability using Node.js, express.js, MongoDB.
- Create E-commerce site (Online shopping store) using React.js. Utilizing React hooks for state management and tailwind.css for the design
- Todo list app using React.js, HTML and CSS
- Weather forecast app using React.js Node.js and tailwind.

TECHNICAL (IT) SKILLS

Web Technologies:

HTML/HTML5, CSS3, Javascript, ES6, TailwindCSS, Material UI, Next.js, React.js, Express JS, Node.js, Postman, Playwright, Vitest.

IDE Editor:

Visual Studio Code, Sublime Text3

Database:

MongoDB, PostgreSQL

Version Control:

Git, Github, Gitlab, Bitbucket
